Amendments in the Specification: (struck-through parts deleted and underlined parts added)

After the paragraph ending on page 7, line 10, please insert the following:

~~Though multiple conventional processors, microchips and micro-switches may be used, one chip that may be utilized is the BC1-IC, which is a 14-pin SIP module. This microchip may be acquired by Parallax Inc. and information regarding this chip's purchasing and specifications can be found at www.parallax.com/detail.asp?product_id=BS1-IC.~~ A processor capable of desired functions is an integrated circuit module commonly known by the part number BS1-IC. Such modules are manufactured by Parallax Incorporated and are sold by that manufacturer under the part number BS1-IC. Parallax Incorporated is located at 599 Menlo Drive, Suite 100, Menlo, California.
